### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: CLAIMS 1-4 AND 9-20 ARE CANCELLED.

This application is in condition for allowance except for the presence of claims 1-4 AND 9-20 directed to an invention non-elected without traverse. Accordingly, claims 1-4 AND 9-20 have been cancelled.

### ***Allowable Subject Matter***

Claims 5-8 are allowed.

The following is an examiner's statement of reasons for allowance: patentability resides, at least in part, in the joint connector having a circuit-forming unit being mounted to the connector case and having a plurality of connection pins protruding in the inserting-side connector portion-receiving compartment to be connected with the connecting terminals in the inserting-side connector portion; wherein a clearance is provided between respective interlocking surfaces of an interlocking recess portion and an interlocking protrusion portion constituting the connector housing-locking means so that the interlocking protrusion portion is loosely interlocked with the interlocking recess portion, whereby the plurality of connector housings are loosely combined so as to be

shiftable relative to each other, in combination with the other limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
